

Departmental Seminar

Professor Saminathan Ponnusamy

Indian Statistical Institute
Chennai Centre, India

On Bohr Inequality for Harmonic Mappings

Date: Tuesday, April 18, 2017

Venue: C102, Chemistry Building

Time: 4:00 p.m. - 5:00 p.m.

ABSTRACT

A harmonic univalent map on the unit disk is a harmonic map which is also quasi conformal. It also lifts a minimal surface. In this seminar, some known results and some future problems shall be discussed.
