

Topics for MPT
Engineering/Architecture

- 1) Domain of functions**
- 2) Operations on algebraic expressions**
- 3) Properties of quadratic functions**
- 4) Properties of linear functions**
- 5) Simplifying powers of expressions**
- 6) Simplifying radicals**
- 7) Factorizations**
- 8) Algebra of functions**
- 9) Solving quadratic equations**
- 10) Solving rational equations**
- 11) Solving inequalities**
- 12) Solving absolute value inequalities**
- 13) X and y Intercepts**
- 14) Exponential and logarithmic equations**
- 15) Logarithmic properties**
- 16) Trigonometric functions**
- 17) Trigonometric identities**
- 18) Application problems**
