

AUS Senate Standing Committees (2018-2019)

2- Research and Professional Development Committee

By delegation, this committee initiates, evaluates, and proposes new or modifications to plans, strategies, policies, or implementation guidelines pertaining to Faculty research, intellectual contributions, art work, and professional development, for the purpose of continuously developing AUS as an excellent institution of higher learning and research, on solid financial ground. The scope of responsibilities of this committee includes: (1) The University-wide strategy for research and intellectual contributions; (2) The review, establishment, restructuring, or divestiture of research institutes or centers; and (3) Public relations, information technology services, university conferences and special public events, publications, campus development, or the efficient use of university facilities, as they impact the productivity of Faculty research and intellectual contributions. To discharge its function, the Chairperson of this committee is delegated the powers to request and receive, in a timely fashion, necessary reports from Administrators. This committee reports to the Senate Executive Committee (SEC) through the Senate President.
