Achievement Academy
Bridge Program

أكاديمية الإنجاز
برنامج الإعداد الأكاديمي
A proven track record
For over 20 years students from more than 30 countries have been through our Achievement Academy Bridge Program, going on to be successful in their major of choice at AUS.

I started my AUS journey in the Achievement Academy Bridge Program (AABP) in Spring 2019. Besides improving my English language, I decided to dedicate my free time to extracurricular activities. I became a class representative and also a volunteer for the AABP Club. This was when I learned to balance studies and fun!

Abdinasir Muhumed Ahmed
AABP Alumnus and AABP Student Council Representative 2021-2022

Take elective courses from the College of Arts and Sciences
Each semester, our qualified Bridge Program students can take up to 6 credits from a selection of 12 different elective courses from the College of Arts and Sciences while developing their English language skills.

Three out of four students achieve the AUS required IELTS/TOEFL score within one semester.

Take elective courses from the College of Arts and Sciences
Each semester, our qualified Bridge Program students can take up to 6 credits from a selection of 12 different elective courses from the College of Arts and Sciences while developing their English language skills.
Providing a bridge to your potential

The Achievement Academy Bridge Program at American University of Sharjah is designed to help you improve your English language skills and prepare for university success, while enjoying everything AUS student life has to offer.

- Take math, physics, Arabic heritage and mass communication courses*
- Ease into university life
- Improve your English skills
- Build friendship and support networks
- Learn essential study skills
- Achieve your IELTS/TOEFL targets
- Prepare and progress directly to first-year university writing courses
- Experience AUS student life
- Join sports teams, student clubs and activities
- Receive personalized support

*For prospective engineering and business students at the foundation or 100 level. Engineering students should take the math and physics placement tests. Business students should take the math placement test. Students who achieve the required scores on the math and physics placement tests can take the relevant math or physics 100 level course while developing their English skills. AABP students can take the Arabic heritage courses taught in Arabic.

As an AABP student, you may be eligible for a financial grant.

Contact us for details: scholarship@aus.edu
Reach your IELTS/TOEFL targets as an AABP student and a #Proud_AUSer

The AABP is designed for students scoring between 45 and 79 on the EmSAT (Achieve English) or between 5.0 and 6.0 on the IELTS (Academic Version) or between 450 and 547 on the AUS Institutional Paper-based TOEFL (ITP) or between 6.0 and 6.0 on the IELTS (Academic Version) or between 1100 and 1350 on the EnSAT (Achieve English)
Through our program, you will:
• Gain helpful test-taking skills.
• Learn from highly qualified and experienced IELTS/TOEFL instructors.

What you will study as an AABP student
