The American University of Sharjah Earns AACSB International Accreditation

AACSB accreditation is the hallmark of excellence in business education and has been earned by less than five percent of the world’s business schools. Today, there are 620 business schools in 38 countries that maintain AACSB accreditation. Similarly, 177 institutions now maintain an additional specialized AACSB accreditation for their accounting programs.

“AACSB commends the faculty, deans, directors, and administrative staffs of each institution for their exemplary work in helping their schools earn or maintain the highest honor in business school accreditation” said John J. Fernandes, president and chief executive officer of AACSB International. “We are pleased to welcome the newly accredited schools, and send our congratulations to those that have maintained their accreditation.”
