OFFICE OF STUDENT EXPERIENCE

WELCOME

Your university years are an exciting chapter of your life, and the *Student Handbook* will help you explore the many non-academic support services, extracurricular offerings and facilities that make student life at AUS so vibrant. Whether your interests are in sports, student clubs and organizations, community outreach or leadership, AUS provides many opportunities beyond the classroom that will help you pursue your interests and excel. The handbook also serves as an essential guide to the use of university facilities and to living in the residential halls.

An important component of the *Student Handbook* is the Student Code of Conduct. The Code sets out the university's expectations of students' behavior, consistent with the university's values. Students are responsible for reading the handbook in its entirety, and for abiding by all university rules and regulations.

Should you have any inquiries regarding the policies outlined in this handbook or any aspect of the student life at AUS, please don't hesitate to reach out to Student Conduct and Conflict Resolution at sccr@aus.edu or +971 6 515 2250. You can also contact studentexperience@aus.edu or call +971 6 515 2166. Contact details for the OSE units are included within this handbook.

About AUS

American University of Sharjah (AUS) was founded in 1997 by His Highness Sheikh Dr. Sultan bin Mohammed Al Qasimi, Member of the Supreme Council of the United Arab Emirates and Ruler of Sharjah, who envisioned AUS as a leading educational institution in the Gulf region. American University of Sharjah is an independent, not-for-profit, coeducational institution. Consciously based upon American institutions of higher education, AUS is thoroughly grounded in Arab culture and part of a larger process of the revitalization of intellectual life in the Middle East.

American University of Sharjah has succeeded in building a multicultural education environment that brings together people from diverse nations and backgrounds. AUS strives to instill in its students the importance of appreciating and understanding diversity, global issues and their own roles in society.

AUS is a leading comprehensive coeducational university in the Gulf, serving students from the region and around the world. AUS students are introduced to a culture of high aspiration and achievement to aid them in leading productive and meaningful lives. AUS is also dedicated to the preservation of the physical environment, free from pollution and neglect. This sense of environmental responsibility is passed on to AUS graduates in order to create ecologically aware citizens.

In keeping with its mission, AUS offers students an education that will enable them to comprehend the dynamism and complexity of contemporary global processes. Through the integration of liberal studies and professional education, students are given both breadth of knowledge and specialization in their chosen fields. Education at AUS runs the gamut from art, poetry and religions from past civilizations to the latest skills and technologies of today's information age. These are all presented to students in order to produce future leaders with a firm understanding of how society has reached its present state. The combination of traditional and innovative teaching methods provides an educational environment in which students can realize their individual potential and pursue their goals.

AUS is well qualified to meet the challenges inherent in preparing its students for life in the age of electronic communication, global economies, social pluralism and political interdependence.

The university offers undergraduate and graduate degrees through the College of Architecture, Art and Design; the College of Arts and Sciences; the College of Engineering; and the School of Business Administration. For Fall 2024, the full-time equivalent (FTE) faculty: student ratio was 13.3:1.

While Arabic is the official language of the United Arab Emirates, the language of instruction at AUS is English. All classes and administrative functions are conducted in English.

Islam is the official religion of the state, and Arab Islamic culture predominates in the UAE. The nation is also distinguished by its tolerance toward its large expatriate communities, which comprise diverse nationalities, cultures and religious beliefs. Following in this spirit of understanding and acceptance of all peoples, AUS admits students solely on the basis of their academic qualifications regardless of race, color, gender, religion, disabilities, age or national origin. The university aims to create a multicultural, international academic community in order to prepare its students to become lifelong learners equipped to adapt to the needs of our changing world.

AUS was established as an "American" university not only in its formal academic and organizational characteristics but also in the recognition that the total culture and philosophy of the educational community is as significant as the formal program of studies. Students learn the lessons of the classroom and the lessons of life in a coeducational, multicultural and multinational environment. From its inception, AUS was envisioned as a place that would "feel" like an American campus.

Student Conduct and Conflict Resolution

The mission of Student Conduct and Conflict Resolution (SCCR) is to articulate the standards of behavior expected from AUS students and to instill personal accountability, ethical development and respect for all members of the community through student conduct administration and conflict resolution practices that nurture a safe and secure campus.

Student Conduct and Conflict Resolution is a non-academic student support service of the Office of Student Experience. It is committed to promote an open and understanding environment that is conducive to learning and the pursuit of knowledge. SCCR is responsible for educating students about their rights and responsibilities and encouraging them to maintain the highest standards of ethical behavior, both to protect the AUS community and to promote students' moral development. During orientation week each semester, SCCR informs new students about its services, the Student Code of Conduct Policy and the conduct process. SCCR strives to resolve allegations of misconduct under the Student Code of Conduct Policy in a manner consistent with its core value of fairness, honesty and integrity. SCCR is responsible for the overall coordination and adjudication of the student conduct process.

Student Conduct and Conflict Resolution also offers mediation services. Student conflicts addressed to SCCR are mediated by a qualified mediator. The mediation process is followed by the mediator in conducting mediation between students upon their written consent. Students are also offered training in mediation.

Student Conduct and Conflict Resolution maintains the strictest confidentiality with respect to student information and therefore all the information shared with the SCCR officials, and the Conduct Council Hearing Board will not be shared with any member of the community unless the student agrees or is found to be a threat to the AUS community. Information about academic and misconduct penalties will be shared between Academic Affairs and Student Experience.

Student Conduct

Members of the AUS community live, work and study together in an institutional framework in pursuit of truth and the dissemination of knowledge. Freedom of inquiry and intellectual endeavor can flourish only in a community in which the participants are united in their mutual search for intellectual growth.

If the purpose of the university and its community is to be realized and advanced, the rights, responsibilities and reasonable standards of conduct essential to a university community

must be set forth. AUS students are expected to read and understand the established Student Code of Conduct Policy and conduct procedures.

Authority for Student Discipline

The ultimate authority for all university policy is vested in the Board of Trustees of American University of Sharjah. Non-academic disciplinary authority is delegated to the Vice Chancellor for Student Experience, who implements student conduct policies and takes all necessary and appropriate action to protect the safety and well-being of the campus community. The Executive Director of Student Residential Life and Conduct is entrusted the responsibility of overseeing and actively engaging in non-academic student conduct administration and chairing the university's Conduct Council Hearing Board. The university reserves the right to amend this Student Code of Conduct Policy at any time according to established procedures. Student Conduct and Conflict Resolution reserves the right not to disclose internal case reports. Student Conduct and Conflict Resolution has no jurisdiction in any legal matters related to external personal student disputes.

Non-AUS individuals or alumni reported for indulging in breach of the Student Code of Conduct Policy will be referred to Campus Security/Office of Protocol. Students should be mindful of their guest(s) behavior. The student will be held responsible if the guest violates AUS policies. Sanctions will be imposed on the students, regardless of whether he/she was directly involved in the violation.

University Policies Governing Student Conduct at AUS

The Student Academic Integrity Code describes standards for academic conduct, students' rights and responsibilities as members of an academic community, and procedures for handling allegations of academic dishonesty. The Student Academic Integrity Code is published in the [AUS Undergraduate Catalog](#) and this handbook. The Student Code of Conduct Policy describes standards of general student conduct usually excluding academic responsibilities. All alleged non-academic violations are resolved in accordance with the code under the direct authority of the Vice Chancellor for Student Experience.

The Chancellor is responsible for all matters of student conduct.

Interpretation and Revision

The Student Code of Conduct Policy shall be reviewed annually by Student

Conduct and Conflict Resolution under the direction of the Vice Chancellor for Student Experience.

Students and university community members may make policy suggestions directly to the Vice Chancellor for Student Experience.

Policy Statement

Introduction

The student conduct system provides students with a fair adjudication process in instances where there are alleged violations of the Code. The purpose of student conduct proceedings is to determine whether the University's standards of conduct have been violated.

The University views the student conduct system as an educational opportunity that leads to greater personal understanding of one's responsibilities and privileges in the University community. Acceptable standards of conduct have been established to protect the rights of others, and to ensure the safety of community members and the orderly operation of the University. Students must ensure that their conduct does not violate applicable local laws of Sharjah, federal laws of the UAE, and all AUS rules, regulations and policies, including the Code. At times, mediation or other non-disciplinary alternate dispute resolution options will be considered to resolve conduct cases.

Mediation is encouraged as an alternative means to resolve minor conduct cases. The Student Conduct and Conflict Resolution Official will determine if mediation is appropriate and, at his/her discretion, may decline to process a complaint until the parties in a misconduct case make a reasonable attempt to achieve a mediated settlement. To be binding in a conduct case, any mediated settlement must be approved by the Senior Manager-Student Conduct and Conflict Resolution. If mediation fails, the case will be forwarded for adjudication.

1- Scope of the Code

- 1.1 AUS students must adhere to the applicable local laws of Sharjah, federal laws of the UAE, and all AUS rules, regulations and policies, including the Code.

- 1.3 Student organizations, clubs, teams and associations affiliated with specific Student Experience programs or specific school/college programs may have additional standards of behavior or a specific code of ethics that students are expected to be aware of and comply with. Any violations will be treated as per the relevant AUS policy. In cases where breaches also constitute a violation of the Code, the student may be subject to adjudication and possible disciplinary sanctions under the Code as determined by Student Conduct and Conflict Resolution.
- 1.4 If a violation of the Code can also be considered a violation of academic, athletic, residential, or student organization/club policy, then the Vice Chancellor for Student Experience or designee will consult with the other relevant unit(s) to determine the sequence by which the case will be handled by the relevant unit(s).
- 1.5 In instances where Code violations may be addressed under another AUS policy, then the Vice Chancellor for Student Experience shall refer the case to the Chancellor or other University Policy Administrator for a final determination regarding the process to be followed.

The Conduct Council Hearing Board (CCHB) is responsible for deliberating and recommending sanctions on major infractions of the Code.

Procedure/Guidelines

Complaints related to breach of the Code involving student(s) must be reported to the Vice Chancellor for Student Experience, Executive Director-Student Residential Life and Conduct and/or Student Conduct and Conflict Resolution in writing or emailed to scqr@aus.edu, or through an incident report filed through the Student Infraction Management System: https://aus-advocate.symplicity.com/public_report/ or hotline@aus.edu

1- Student Conduct Process

1.1 Student Conduct and Conflict Resolution Officials will acknowledge the complaint, meet with the student(s) involved [the complainant(s) and the respondent(s)], discuss the charges, determine whether the violation has occurred, inform those responsible of the charges and issue the sanctions at a primary level. Student Conduct and Conflict Resolution officials will issue undertakings, reprimands and warnings (verbal, first, second and final). In cases of infractions that warrant sanctions, the Student Conduct and Conflict Resolution Officials will recommend sanctions to the Vice Chancellor for Student Experience for consultation and approval. Student Conduct and Conflict Resolution Officials will be responsible for questioning, listening to the complainant and respondent, writing reports, collecting supporting evidence, and reporting to the Vice Chancellor for Student Experience and the CCHB (when it is determined that a major misconduct warrants review by the CCHB). SCCR will be responsible for organizing hearings; implementing sanctions; documenting and storing case-related material; following up with students, witnesses and connected individuals; providing referrals to concerned University units; and archiving student files.

1.2 When a student is found responsible, the Vice Chancellor for Student Experience is authorized to impose warnings with the following sanctions: conduct probation, community services, suspension for one or more semesters or dismissal from the residential halls, denial of use of University privileges, and levying fines. stipulated period, or one- or two-semester suspension or dismissal from the University.

- 1.3 Students who have violated the Policy on Classroom Conduct must be referred to Student Conduct and Conflict Resolution. If student behavior is found egregious and represents a threat to self or others, the concerned community member should provide Student Conduct and Conflict Resolution referral for crisis intervention and emergency action or Student of Concern Committee.

2- Proceedings

- 2.1 Any member of the University community may bring a complaint against a student or a student organization. A complaint or incident report must be filed with Student Conduct and Conflict Resolution on the discovery of the alleged infraction(s). SCCR will receive a complaint if extenuating circumstances affected and prevented the complainant from reporting for a significant period of time from the date of the incident. The complaint or incident report should be a concise and complete statement of the allegations. A complainant may report anonymously. Delayed incident reporting may cause difficulties in ascertaining facts and limit the outcome of investigations.
- 2.2 Student Conduct and Conflict Resolution Officials will conduct inquiries with the complainant and respondent to determine whether a violation has taken place. If there is sufficient cause to believe that violation has occurred, the parties will be notified of the charges and evidence will be collected. Upon determination of policy violations, charges will be conveyed to the responsible student and sanctions will be discussed with the Vice Chancellor for Student Experience for implementation. If an incident warrants a hearing, the Senior Manager for Student Conduct and Conflict Resolution will consult with the Vice Chancellor for Student Experience and organize a hearing with the University's Conduct Council Hearing Board (CCHB).
- 2.3 Student Conduct and Conflict Resolution Officials will contact the CCHB members to set a time and place for the hearing. Every effort shall be made to schedule this hearing within one week of the time a complaint is filed. The respondent

shall receive a notification of the alleged violation and the time and place of the hearing.

The student must ensure that he/she is alone, and do not record or take any screenshots or audio/video of the hearing session.
- 2.9 Student Conduct and Conflict Resolution reserves the right to continue the proceedings of an unclosed case after any semester break or university closure. Incidents will be kept open until the student is heard.
- 2.10 Evidence and Burden of Proof: In determining whether or not a violation of the Student Code of Conduct has occurred, accountability must be proven by a preponderance of the evidence. Preponderance of evidence in administrative hearings is: "is it more likely or not" that someone has violated a policy. If there is sufficient cause to believe that a violation has

occurred, the parties will be notified of the charges and evidence collected. Evidence can be any observation, admission, statement, or document which would either directly or circumstantially indicate that a violation has occurred.

Special Cases

All AUS registered students are subject to rules and disciplinary procedures, including students with psychological, mental health or other medical conditions. The following will be treated as special cases as per the following procedures:

1. When there is sufficient cause to believe that a student accused of a violation of the Student Code of Conduct may pose a threat of violence directed against self, others or University property as a result of psychological, mental health or other medical conditions, the Vice Chancellor for Student Experience or designee may provide a referral to the University Counseling Services, the University Health Services, Student of Concern Committee or a qualified professional outside of the University for a comprehensive evaluation. 2. If circumstances warrant a comprehensive evaluation by a qualified professional outside of the University, students will be responsible for all costs associated with the evaluation. The University reserves the right to verify that the evaluation has been completed.

Emergency Action

If a student causes harm to self or poses an immediate threat to others, the Vice Chancellor for Student Experience or designee will contact Office of Protocol and Security for intervention and provide a referral to University Counseling Services, the University Health Services, or a qualified professional outside of the University for a comprehensive evaluation. If circumstances warrant a suspension or expulsion, the Vice Chancellor for Student Experience will make a recommendation to the Chancellor.

In the instance of severely and willfully disruptive behavior, or when the ordinary rights of any member of the University community are threatened by the continued presence or activity of any student or students in the residential halls or elsewhere on campus, the Vice Chancellor for Student Experience may suspend such student(s) from participating in residential life or other campus activities, or suspend an organization or club temporarily pending the outcomes of a hearing.

Confidentiality

Incident discussions and conduct proceedings are treated confidentially for both the complainant and respondent. Only members of the AUS community with legitimate need-to-know will be consulted or informed of confidential information regarding a student. The University will weigh the request for confidentiality with the safety of the community in cases where there is evidence that the offender will cause harm.

If requested, efforts will be made to protect the complainants' and witnesses' identities as a preventive measure; to ensure the safety of all parties involved. Parties will sign a No Contact Contract with Student Conduct and Conflict Resolution.

The right to confidentiality will be considered waived if an accused student discloses confidential information regarding the proceedings or decisions to a third party.

Parental Notification

The Office of Student Experience may notify parents or guardians of students' misconduct when:

1. A student violates the University's alcohol or drug policies or is involved in an act of serious misbehavior determined by the Vice Chancellor for Student Experience to be egregious to indicate that the student's health or safety may be at risk, or that the student may have placed others at risk.

- **Loss of privilege:** For example, denial of visiting privileges in University housing or denial of access to computer services or to the Sports Complex.

3. Appeal Process:

Conduct actions may be appealed in keeping with the following provisions:

3.1 Respondents may appeal any conduct that resulted in a sanction of disciplinary/conduct probation, removal from University housing, suspension or dismissal.

1. An appeal must be emailed to the University Appellate Committee at UACSC@aus.edu within seven working days after date of notice. In instances of dismissal from the University, Senior Manager–Student Conduct and Conflict Resolution will forward the case to the Appellate Board and notify the student.
2. Appeals will be reviewed by an Appellate Board of the CCHB and will consist of five members who did not serve on the original hearing panel.
3. The Appellate Board will determine the appeal's viability based on whether there is new information that significantly alters the face of facts stated earlier, evidence of improper procedure, findings that are against the weight of evidence or excessive sanctions.
4. The Appellate Board may deny the request for appeal and affirm the original findings of the CCHB or grant the request for an appeal and forward its recommendations to the Chancellor.
5. The following standards will apply when appeals are considered by the Chancellor:
 - a. Sanctions may be increased or decreased if found to be substantially disproportionate to the offense.
 - b. Cases may be remanded for rehearing by the CCHB if specified

procedural errors or errors in interpretation of university regulations were so substantial as to deny the respondent (*or complainant*) a fair hearing, or if new and significant evidence becomes available that could not have been discovered before or during the original hearing.

- c. Cases may be dismissed if the finding is deemed to be unsupported by the evidence.

3.2 A student withdrawn or suspended temporarily due to misconduct or a psychological, mental health or other medical condition may appeal to the Vice Chancellor for Student Experience for reinstatement in the residential halls. The Vice Chancellor for Student Experience will ensure that there is no indication of continuation of the misconduct that resulted in withdrawal or temporary suspension. The Vice Chancellor for Student Experience will form an advisory group to assess the appeal, review supporting documents (e.g., medical reports), and make a recommendation to the Chancellor. The Vice Chancellor for Student Experience or designee will inform the student of the final decision in writing.

Disciplinary Files and Records

Case/incident referrals may result in the development of a disciplinary record in the name of the respondent that will be retained in the Student Infraction Management System. The student record will be marked “not responsible” if the student is found not in violation of the code. The disciplinary record of student(s) found responsible for any charges against them will normally be retained for at least five years from the date a decision letter is issued stating the sanctions. Evidence in the form of audio or video record, SMS or text messages, written proof or other material in physical or electronic form collected by SCCR will be archived.

Conduct of Students on Student Council or Boards of University-Registered Clubs/Organizations

Students on Student Council or on the boards of university-registered clubs and organizations are considered role models for their peers. AUS expects all board members to adhere to the highest standards of ethical behavior. A student on any board who is found in violation of the Student Code of Conduct or Academic Integrity Code or UAE laws during his/her tenure will be immediately ejected from the club/organization and discharged of his/her responsibilities from the date of receiving the notification from the Vice Chancellor for Student Experience or designee.

Conduct of Participants and Spectators at Sports Events

Good sportsmanship is vital to the success of every athletic contest. The university and Student Athletics and Recreation work to ensure that students

exhibit good sportsmanship while participating in or watching any athletic event. In order to encourage proper conduct during sports events, officials, supervisors and administration personnel shall make decisions on whether to warn, penalize or eject participants/players or teams showing poor sportsmanship. These decisions are final. The following are considered evidence of poor sportsmanship:

- unnecessary delay of game
- participation under a false name
- use of profanity
- striking or shoving an opponent or official
- arguing with officials concerning judgment calls
- derogatory and abusive remarks
- any action intended to physically harm an official
- any action that shows disregard for the rules or policies of the AUS Student Athletics and Recreation department
- any other violations of the Student Code of Conduct

The Student Athletics and Recreation Director will immediately report any participants who exhibit improper behavior to Student Conduct and Conflict Resolution. After a thorough investigation, the Student Conduct and Conflict Resolution Official(s), in consultation with the Vice Chancellor for Student Experience and the staff of the Student Athletics and Recreation department will determine if a letter of reprimand or warning is sufficient or if the case warrants further action by the Conduct Council Hearing Board. The board may recommend sanctions including, but not limited to, a warning letter to the team/athlete or suspension of the team or athlete from engaging in sports activities for a semester or academic year.

Mediation Services

Mediation Services is offered to students through Student Conduct and Conflict Resolution. Mediation is considered as an activity in which a neutral third party, the mediator, assists two or more parties in order to help them achieve an agreement on a matter of common interest. Mediation Services is committed to assist students in resolving their conflicts amicably to reach a win-win agreement that is beneficial for both parties involved in the conflict.

Purpose of Mediation

- To assist students in resolving disputes with the help of a neutral mediator

- To teach students how to mediate and learn to resolve their own problems using an alternative route, i.e., mediation

Benefits of Mediation

- Student conflicts are resolved by applying alternative problem-solving techniques.
- Positive thinking is inculcated in students, and they learn to tolerate team members, fellow students and people with different cultures and traditions.
- Students' personal relationships improve as they learn to communicate better.
- Violence and disciplinary actions are reduced.
- Students learn problem-solving and active listening skills.
- Students availing mediation services assume responsibility for resolving conflicts and learn the consequences of their decisions.
- Students are trained by professionals and become involved in facilitating the mediation process.
- Students are able to contribute to the community.
- The approach of trained student mediators helps mediation become more effective in residential halls as well as in the college/school environment.

Conflicts that May Be Referred to Mediation Services

- Student misunderstandings due to individual factors (such as personal or individual differences) or interactional issues/dynamics between people.
- Interactional student conflicts due to behavioral differences; failure to recognize and understand cultural diversity; secondary emotions such as anger, frustration or hurt; poor listening and communication;

selfishness; or irrational thinking and perspectives.

- Disputes invoking serious violations of the Student Code of Conduct will not be mediated.

The Mediation Process

A dispute or disagreement between students is brought to Mediation Services.

- The mediator collects all the necessary information and makes an appointment to meet the disputants individually.
- Both students are contacted and the reason for their dispute learned.
- The mediation coordinator determines if the dispute is appropriate for mediation.
- She/he schedules the mediation in a neutral location.
- The mediators assist both the parties to arrive at a solution to the dispute.
- When the solution is found acceptable to both parties, a consensual agreement is signed in the presence of the mediator.
- After a certain interval, both parties are contacted to find out if the solution is working.

Students are also offered free mediation training. Selection criteria apply to every applicant. Conducted every semester, this training equips them with the skills to mediate. Trained student Peer Mediators are privileged to experience real mediation cases, provided they remain active on the Peer Mediation Forum and upon the permission of the mediating parties. Students are encouraged to write to mediation@aus.edu for queries concerning mediation or visit www.aus.edu/ose/mediation-services.

Student Residential Life

The AUS Student Residential Life staff support and complement the mission of the university and its academic programs by creating a comfortable and safe environment that contributes to the success of resident students' educational progress and personal growth.

Student Residential Life offers a learning environment that fosters self-dependence, respect for social and communal standards, and acceptance and tolerance of cultural diversity. The residential halls provide opportunities for residents to improve their leadership, communication and social skills, which support their academic development.

Around-the-clock security will always be in place in the halls, with a Residential Life Resource Officer (RLRO) present at all times in each of the halls. For further support to our resident students, there will be full-time Residential Hall Coordinators (RHC) on duty during the day, with each RHC assigned to one or two residential halls, assisted by a full-time Assistant Residential Hall Coordinator in each hall. Additionally, two RHCs will be on duty rotation across the whole residential hall complex, ensuring that there is a RHC available 24/7. Inquiries on residential halls can be sent to res-halls@aus.edu.

The Hub

The Hub serves as a central gathering place for all of the residential students to study and connect with fellow residents. It also serves as a welcome center for parents to meet and catch up with their resident student. Additionally, The Hub is used for the events organized by the residential halls team.

Room Types

Three room types are available: private, semi-private and sharing.

Please see www.aus.edu/res-halls or the *AUS Undergraduate Catalog* for information on the room fees and the Utilities Service Fee.

Residential Halls Facilities and Procedures

- A. **Residential Halls Deposit/Fees.** First-time applicants should pay a refundable Maintenance Deposit Fee of AED 1000. Applicants who cancel their room reservations after the deadline set by the Student Residential Life Department will be charged AED 500, which will be deducted from the Maintenance Deposit Fee. For existing resident students who submit a Housing Application through the self-service Banner system, a fee of AED 500 will be charged if a student cancels the room reservation after the fixed application period as announced by the Student Residential Life. In both

the above cases, the full room fee is due at time of room assignment but payable by the first day of classes. Also, in the case of withdrawal after checking in, the housing fee refund policy will be applicable as mentioned in the housing agreement.

- B. **Right of Occupancy.** Only full-time, registered AUS students who have paid or arranged for the payment of their residential hall fees, tuition and other university fees have the right to reside in the residential halls. Master's and doctoral students can apply for on-campus housing. These students must be registered and must sign a declaration that they will abide by rules mentioned in the *Student Handbook*.
- C. **Moving In/Moving Out.** The residential halls open two days prior to the first placement test given each semester. The residential halls are open 24 hours a day and have Residential Hall Coordinators, Residential Life Resource Officers and Resident Assistants (RAs) to show students their rooms, help them settle in, give them their access cards and answer questions. Likewise, two days after the last final examination of any semester, residents will be expected to move out of their rooms and return their access cards to the staff at their hall. If a student overstays after the final checkout deadline, he/she is liable to pay AED 30 if returning the next semester and AED 90 if not returning, however this overstay is subject to approval from residential halls management. Due to limited storage space, residents must check with the Residential Halls Coordinator about leaving their belongings during the summer vacation. The storage rooms are available only for international students. Students can store up to four items only. Storage spaces are subject to availability. The university holds no responsibility for any stored items or belongings or valuables left behind during such breaks.
- Note:** All room assignments are valid for a single semester/term. Residents need to re-apply to renew their room assignments. All terms in the Housing Agreement remain valid as long as a student remains in the assigned room in the residential halls. If a student does not apply to renew the room assignment within the set dates, the student loses his/her right to get his/her choice of room and will be assigned based on room availability.
- Procedures for Moving In
 - The student's name will be verified on the hall's list of residents.
 - Procedures for Moving Out
 - Staff will compare the room condition against the room inventory form.
 - The student will sign the check-out form.
 - The student will return access card (room key).
 - The resident will vacate the room at the end of the academic year, upon cancelling their room assignment or when being dropped from courses at any time.
 - Security.** To ensure the security of all students, all residential halls are protected by patrolling security staff. Student Residential Life staff members also work to provide safety and comfort for all residents.
 - Room Inventory Forms.** Room inventory forms must be signed and returned to the staff at the halls within one day of issuance. Failure to do so will result in the assumption that the room and furnishings are in excellent condition. Damage charges will be based on the above conditions. As a result, the student may be charged more than he/she would otherwise have been charged. Outstanding cleaning costs for the room, floor or door damage will be charged at the end of a student's occupancy or at the end of the academic year.
 - Check-out Procedure.** Residents who intend to check out should inform the staff in advance. Residents must clean their rooms before checking out and return their rooms to the condition prior to occupancy. Students are responsible for having the room checked, locking the door, returning the access card and checking out with the staff at the hall. If a room is found unclean or student belongings unpacked, SRLD staff reserves the right to arrange for removal and packing of items left behind. Cleaning and packing charges will be applicable depending on the number of cleaners engaged and the packaging material used for the task.
 - Transfer.** Requests for a transfer to another room are first made through the residential coordinators and require final approval by the Complex Manager of Student Residential Life. If a resident is moving to a more expensive room, the difference in price should be paid prior to moving. Students who choose to downgrade their room status will receive no

refund. Please note that transfers are only allowed once per semester and only with a valid reason approved by the Executive Director of Student Residential Life and Conduct. Students who change rooms, graduate, withdraw or take a leave of absence must completely vacate their rooms and return their access cards to hall staff.

- H. **Vacancies.** Student Residential Life seeks to fill every space. A student whose roommate cancels his/her housing agreement or moves out of the room should not expect to occupy the room alone. Arrangements for another roommate will be made. Students may arrange to pay a higher rate to keep the room as a private room or a single room. This is subject to the approval of the Executive Director of Student Residential Life and Conduct (EDSRLC).
- I. **Room Cancellations.** Room cancellation requests are subject to established procedures and the approval of the Student Residential Life staff.
- J. **Access Cards.** For security purposes, residents are compelled to keep their doors closed at all times. If a student loses his/her access card, a replacement fee of AED 50 will be binding. In case the lock cylinder has been damaged, the student will be charged AED 150. In the event any door lock spare part is damaged, charges will be imposed according to that spare part cost.
- K. **Entering Student Rooms.** AUS officials, including the residential coordinators, may enter student rooms (a) when an emergency exists, (b) when a service has been requested by a resident, (c) to check for cleanliness or (d) to check for prohibited items. AUS respects resident students' privacy and therefore will avoid violating it to the greatest extent possible.
- L. **Storage.** Limited storage areas exist in residential halls, so students need to check with their Student Hall Coordinator regarding the space availability for storing their belongings during semester breaks. Stored items must be properly boxed and clearly labeled with the student's name and ID number. The university does not insure stored items and assumes no liability for them. If a student's belongings remain unclaimed for more than eight weeks, the Student Residential Life Department reserves the right to dispose of any unclaimed or leftover items in any manner it deems fit. In addition, if in any semester or session the resident fails to return back by the first day of classes, Student Residential Life has the right to vacate his/her room. In such cases, any removed personal

belongings will be stored for a limited period as mentioned above, without any liability on the part of the university. Kindly refer to the Residential Hall Housing Agreement for further details on leaving personal belongings in the residential hall. Residents will be responsible for collection, handover or exchange of goods, personal items or food ordered by them. Collecting items left unattended will be the responsibility of the resident. SRLD will not be responsible for any loss or damage of students' personal items.

- M. **Cable/TV/Internet.** Students are allowed to have televisions (32 inches size maximum) in their rooms, but personal cable or satellite connections are not allowed to be installed by the resident. However, each hall has a lounge area with a television connected to satellite channels as well as connection to free-to-air satellite channels in each student room. Internet connections are available in all rooms free of charge.
- N. **Liability of Damage, Theft or Missing Belongings.** The university is not liable, directly or indirectly, for the loss and/or damage of personal property that results from a fire, theft or any other cause.
- O. **Scooters.** Residents are responsible for leaving electric scooters outside the residence in the parking lot, or they can store the scooters inside their own rooms. Residents are not allowed to park scooters in the corridors to prevent any blockage or obstruction of the evacuation paths. It is also prohibited to ride scooters inside the residence under any circumstances. During leaves, students who are residents of the UAE should take their scooters with them. International students can store their registered scooters in the residential halls in the space provided by SRLD, following the directives issued by the Safety and Crisis Management department. Stored scooters must not be connected to a battery or power source.

AUS Resident Students' Bill of Rights

All residents have the right to:

- read and study in their rooms
- sleep without disturbance from noise
- live in a safe, clean and drug/alcohol-free environment
- free access to rooms without pressure from roommates
- expect that roommates will protect their personal belongings
- personal privacy
- be free from intimidation and physical and emotional harm

If students feel that any of these rights have been violated, they should inform the Student Residential Life staff or file a complaint with Student Conduct and Conflict Resolution.

Policies Governing Resident Student Conduct

Regulations for student conduct in the residential halls are based on AUS Student Code of Conduct and are detailed below:

- A. **Curfew.** During the week (Sunday, Monday, Tuesday and Wednesday), all residents are expected to be in their respective halls by 12 midnight. During weekends, (Thursday, Friday and Saturday) they must be in by 1:00 a.m. Curfew violations will be managed by Student Conduct and Conflict Resolution. Curfew timings may be adjusted to match extended library hours announced by the University Librarian during study period and exams. During official holidays and the holy month of Ramadan, curfew hours will be announced by the Executive Director of Student Residential Life and Conduct. Resident Students will adhere to the Student Code of Conduct Section 1, Clause 1.1. A resident student may consult with the Complex Manager of Student Residential Life Department about his/her extenuating circumstances for consideration and processing of the exception to curfew timings with approval of the Executive Director of Student Residential Life and Conduct.
- B. **Residential Halls Leave.** All resident students are expected to sleep at the residential halls every night, except during official hall closing periods or if their parents/guardians verify otherwise with Student Conduct and Conflict Resolution officials. No leave is given during the week. Students may only apply for leave on weekends with approval of their parent(s) or guardian; this authorization will remain valid for the entire period of stay unless a notification stating the contrary (cancellation of this form) is received from parent(s) or guardian by Student Residential Life or Student Conduct or Conflict Resolution. Leave during the week is only authorized in cases of emergency or under special circumstances and must be approved by the Student Conduct and Conflict Resolution (SCCR) official. If a resident is absent for two consecutive weeks from the Residential Halls without written notice, the Student Residential Life Department (SRLD) is authorized to cancel the room assigned. In such cases, the student's belongings will be removed from the room and stored as per the storage policy outlined in the Residential Halls Agreement.

- C. **Alcohol/Drugs.** Refer to the Student Code of Conduct 2.1 Policy on Alcohol Abuse and 2.2 Policy on Controlled Substance/Drug Abuse in this handbook.
- D. **Smoking.** Refer to the Student Code of Conduct 2.17 Policy on Smoking in this handbook and the [Smoke-Free Campus Policy](#). The presence of cigarette smoke in a student's room will imply the use of cigarettes or tobacco and will be referred to Student Conduct and Conflict Resolution as a health and safety violation.
- E. **Littering.** Since the residential halls become residents' second homes, all students are expected to maintain cleanliness inside the halls. Rooms are inspected periodically for cleanliness. This practice is important, as it can have serious effects on student hygiene. Students are also expected to regularly empty their rooms of garbage.
- F. **Harassment.** Refer to the Student Code of Conduct 2.10 Policy on Harassment in this handbook.
- G. **Visitors.** AUS non-resident students are not allowed to stay overnight in the residential halls, should spend time in common areas only and leave before curfew.
- H. **Responsibility for Guests.** Residents will be held responsible for the behavior of their guests and any other persons visiting them in their residential hall rooms as outlined by the conduct regulations. Residents may, in lieu of the guest or visitor, be charged with violating the respective sections of these policies.
Important:
- AUS students who are non-residents and any other guests can only visit resident students for brief periods and should only meet them in the reception, TV lounge or computer lab.
 - Fathers and brothers of male residents, and mothers and sisters of female residents can visit their student's room for a brief period during the check-in/move in day and check-out. In addition:
 - A resident shall not pressure a roommate to tolerate the presence of a guest.
 - The presence of the guest should not restrict residents' comfortable use of common and private areas.
 - Residents are not allowed to give access card to guests
- I. **Quiet Hours.** Whatever other functions a residential hall may serve, its essential role is to be a place where students can sleep and study. In order to assist you in your academic endeavors, our policy in all areas is that the right to quiet supersedes the right to make noise. The staff will be more lenient with noise during the day and stricter in their enforcement during the evening and nighttime hours. Quiet hours are designated daily between 12 midnight and 7 a.m. to provide more specific parameters to resident students. Noise generated outside the residential halls may be reported to AUS Security.
- J. **Exterior Displays.** Room decorations must be limited to student rooms. AUS assigns the inside of residences for student use and does not grant residents permission to decorate the exterior of university buildings. This includes window displays, regardless of whether a display is positioned on the inside or the outside of a window. The outside of your door is also considered an interior space for the purpose of decoration. Students will be held accountable to the university for the materials placed on their doors. Students are not allowed to repaint the walls or furniture or damage assets for the purpose of decoration, e.g., nailing a frame to the wall.
- K. **Maintenance.** Student rooms will be fully maintained and repaired for any damages. If students cause damage, they will pay for the cost of repairs. In case of damage, the Residential Hall Coordinator should be informed. Each student is responsible for any damage caused by his/her guest.
- L. **Commercial Use.** Resident students are not allowed to conduct a business operation from within a residential hall. Resident students are prohibited from encouraging commercial or profit-making activities or calling in off-campus sales/beauty professionals. It is also prohibited to rent or sublet a room to another person, even if he/she is an AUS student.
- M. **Flammable Chemicals, Firearms, Fireworks, Weapons and Explosives.** These articles are prohibited, and residents found in possession of such articles will be subject to disciplinary action. Utility knives are permitted in the halls but will be confiscated if used as weapons.
- N. **Fire Safety.** A fire alarm sound indicates that an emergency exists. Residents and guests should never assume that an alarm is false or a drill, as any delay in evacuating could be fatal. Setting fires, turning in false alarms, making a bomb threat, refusing to vacate during a fire alarm and tampering with firefighting equipment, fire alarm systems, fire protection sprinklers and smoke detectors are serious offenses and will result in severe disciplinary action. Staff on duty are the direct persons who are responsible for evacuation of the facility. Students and guests should fully comply with the instruction being issued by the staff. A fire drill will be conducted on regular basis at halls to enhance students' evacuation time. Students are encouraged to participate and cooperate during the fire drill.
- O. **Residential Facilities Policies.** The policies below are aimed at protecting AUS and resident students' property from misuse. Students should not:
- attach a mirror to the walls
 - paint walls, ceilings, doors, university furniture, etc.
 - remove window screens
 - install external wiring, antennas or satellite dishes
 - put any holes or hooks in walls, floors or ceilings
 - intentionally or unintentionally damage university property
- P. **Laundry.** Washers and dryers are located in each residential hall. Only resident students are allowed to use this service. AUS is not liable of any loss, damage or theft of student's clothes. Students are encouraged to be on guard while they are using the laundry.
- Q. **Furniture.** Students are strictly forbidden from removing any of their room furniture. The necessary furniture is provided according to AUS standards. Resident students may obtain approval from the Executive Director of Student Residential Life and Conduct to bring in special furniture prescribed for medical purposes.
- R. **In the Event of an Emergency.** Students may contact the Residential Halls Coordinator on duty who will communicate with the emergency services of the university.
- S. **Fitness Rooms.** By signing the check-in form, the residing student has accepted that AUS is exempted from any liability related to the use of the fitness rooms.

Residents will be billed for repair or replacement if they have caused damage in their own rooms or in common areas. In the event of willful damage to the common areas in the immediate vicinity of a student's room or to the furnishings or facilities located there, if the willful perpetrators of such damage cannot be identified, all residents served by that common area may be assessed for repair or replacement costs.

Job Description and Responsibilities

The RA will oversee and manage a group of 25-40 residential students in one of the student residential life buildings. The RA will be reporting to the Residential Hall Coordinator and working closely with other coordinators in the halls and their peers.

The topics can include a conversation on how the student is connecting to the campus, wellbeing and academic success.

Community Development

RAs provide leadership and support for our departmental community development model. Some components of this model include educational and social programming, community service and leadership. RAs help connect students to opportunities on campus through their school/college and the Student Engagement and Leadership department.

RAs are supported by Student Residential Life staff and their coordinators. RAs will work together on a duty schedule of when they are on duty for the residents. Being an RA is as much about being a part of a team as it is about any single component of the job.

Training and Education

RAs are committed to learning the leadership skills to be successful and will actively participate in education and training activities. RAs should be knowledgeable on all services and resources available to a student. Student Academic Integrity Code

Academic integrity lies at the heart of intellectual life. As an institution committed to the advancement of knowledge in a manner consistent with the highest ethical standards, AUS affirms the importance of respecting the integrity of academic work. The AUS Student Academic Integrity Code (referred to herein as Code) describes standards for academic conduct, students' rights and responsibilities as members of an academic community, and procedures for handling allegations of academic dishonesty. In order to establish within the AUS student body a sense of ethical responsibility, honor and mutual respect, prior to registration, every student must sign the following Academic Integrity Pledge:

I [*student's name*] pledge my commitment to the following values:

- I will hold myself accountable for all that I say and write;
- I will hold myself responsible for the academic integrity of my work;
- I will not misrepresent my work nor give or receive unauthorized aid;
- I will behave in a manner that demonstrates concern for the personal dignity, rights and freedoms of all members of the community;
- I will respect university property and the property of others; and
- I will not tolerate a lack of respect for these values.

Students are responsible for becoming familiar with their rights and responsibilities as defined by the Code and for ensuring that they understand the requirements for their particular courses (e.g., regarding issues such as collaborative work, use of study aids or take-home examinations, etc.).

Attempts to violate or to assist others in violating the Code, including unsuccessful attempts, are prohibited and will be treated as actual violations.

Definition of Academic Violations

Members of the AUS academic community are expected to conduct themselves with integrity in their work and actions. Violations of the Code include, but are not limited to, the following categories.

Plagiarism

To plagiarize is to use the work, ideas, concepts, images or words of someone else, or a generative AI tool, without fully acknowledging the source in all academic work, including assignments, quizzes, examinations, papers and projects. Plagiarism may involve using someone else's wording, or wording generated by an AI tool—a distinctive name, a phrase, a sentence or an entire

passage or essay—without using quotation marks and appropriately citing the source. Plagiarism may also involve misrepresenting the sources that were used or expressing the ideas of someone else in your own words without the appropriate citation.

Inappropriate Collaboration

Collaboration on academic work may be encouraged, but it is important to ensure that contributions are acknowledged. Inappropriate collaboration includes working with someone else, or making use of a generative AI tool, in developing, organizing or revising a project (such as a paper, an oral presentation, a research or design project or a take-home examination) without acknowledging that person's or the tool's help. The use of unauthorized assistance must be avoided in the production of all academic work. Specific requirements related to collaborative work, peer review, the use of an external entity in the production of work, the use of tutors and editing may vary among courses and students must ensure that faculty members explicitly provide approval in advance of the collaboration.

Impersonation

Students must attend their own classes, be present and sit for all tests and examinations, and personally attend other events associated with a course.

The individual impersonated and the impersonator may be subject to sanctions.

Dishonesty in Examinations and Submitted Work

All academic work and materials submitted for assessment must be the sole original work of the student, unless otherwise directed by the instructor.

Students are prohibited from submitting any material prepared by or purchased from another person or company.

Communication is not allowed between or among students, nor are students allowed to consult books, papers, study aids or notes without explicit permission by the faculty member

responsible for the course. Dishonesty includes, but is not limited to, communication with another student or an external party using electronic devices during an examination or in class assignment, copying from another's paper, giving unauthorized assistance, obtaining unauthorized advance knowledge of examination questions, and the use of mechanical or marking devices or procedures for the purpose of achieving false scores on machine-graded examinations.

Specific policies regarding examinations may vary among individual professors. If the possession of any active electronic communication device—including but not limited to mobile phones,

smartwatches, cameras, smart glasses, or similar devices—is expressly prohibited during an examination, then any student found in possession of such an active device shall be deemed in violation of this section of the academic integrity code.

Work Completed for One Course and Submitted to Another

Students may not present the same work for more than one course. Under exceptional circumstances, faculty members may permit a significant piece of research to satisfy requirements in two courses. However, both professors must agree in advance to this arrangement. If past research is incorporated into current projects, previous work must be appropriately referenced.

Deliberate Falsification of Data

Students may not deliberately falsify data or distort supporting documentation for course work or other academic activity.

Interference with Other Students' Work

Students may not intentionally interfere with the work of others, such as sabotaging laboratory experiments, creative work, research or digital files, or by giving misleading information or disrupting class work.

Copyright Violations

Copyright laws must be observed. These laws govern practices such as making use of printed materials, duplicating computer software, duplicating images, photoduplicating copyrighted materials and reproducing audio/visual works. The Code prohibits theft and the unauthorized use of documents and requires adherence to the laws of Sharjah and the federal laws of the UAE.

The AUS library offers a Copyright and Permissions Service and can assist students with issues and questions related to copyrighted materials and their use. Students may contact copyright@aus.edu for assistance.

Complicity in Academic Dishonesty

Complicity in academic dishonesty consists of helping or attempting to help another person commit an act of academic dishonesty or willfully assisting another student in the violation of the Code. Complicity in academic dishonesty is pre-meditated and intentional. This can include, but is not limited to, the following:

- doing work for another student
- designing or producing a project for another student
- willfully providing answers during an exam, test or quiz

- communicating with another student or external party on a computer, mobile phone or other device while an exam is in progress
- providing a student with an advance copy of a test
- posting of notes or other materials from a class (whether the student is enrolled in the class or not) on the Internet, whether or not for a fee, without express permission from the faculty member
- leaving inappropriate materials behind at the site of an exam or test

Adjudication of Academic Offenses

Jurisdiction

Academic cases resulting from alleged violations of the Code are within the jurisdiction of the dean (or appointed designee) of the college/school in which the alleged Code violation occurred.

Faculty members who have knowledge of an alleged violation should report the incident to the dean (or appointed designee) of the college/school in which the alleged Code violation occurred.

A faculty member may exercise discretion in those cases involving a student's judgmental error rather than willful violation of the Code.

Students who wish to bring charges against other students must do so through the faculty member in whose course or academic activity the alleged Code violation occurred. The student who brings the charges must identify himself/herself to the faculty member.

Violations of the Code that involve admission and/or placement testing fall within the jurisdiction of the Vice Provost for Undergraduate Affairs and Instruction and may result in the revocation of admission or dismissal from the university.

The Adjudication Process

An allegation of dishonesty must be reported to the dean (or appointed designee) within five working days of the date of discovery of the alleged offense. Normally, an allegation of academic dishonesty must be reported during the semester in which it occurred, however there may be situations in which a violation is discovered after the semester has ended. Reports of an alleged violation must be supported by appropriate documentation.

Once the alleged violation has been reported, faculty members must not submit grades for the work in question or for the course until the case has been adjudicated. If the semester grades are due before the adjudication process is complete, a temporary grade of N will be assigned, and a "Pending Conduct Investigation" statement will be recorded on the student's academic transcript.

The student must remain enrolled in the course in which an infraction has been

reported until the adjudication process is complete.

Legal counsel or involvement of any parties other than the student and relevant university personnel is not permitted at any point during the adjudication process.

After receiving complete information, the dean (or appointed designee) will follow the adjudication process outlined below:

- The dean (or appointed designee) will promptly notify the student of the allegation and inform the student of the date and time of a formal meeting to discuss the charge.
- The dean (or appointed designee) will meet with the student to explain the adjudication process and present the charge and the evidence. If the student fails to attend the meeting, the dean (or appointed designee) will proceed with the process.
- The student will be given the opportunity to respond to the allegation in writing within two working days.
- After the deadline for the student to respond to the allegation has passed, the dean (or appointed designee) will consider all evidence and, depending on whether a preponderance of evidence supports the allegation of academic misconduct, take one of the following actions:
 - dismiss the case
 - request that the student
 - resubmit the work in question or
 - retake an examination
 - assign a penalty
- If a student resubmits the work in question or retakes an examination, the results will be considered in determining whether a preponderance of evidence exists to support the allegation of academic misconduct and the assignment of a penalty.

Penalties

Violations of the Code will be treated seriously, with increasingly severe penalties considered for repeat offenders. A second violation may result in suspension or dismissal.

In assigning a penalty, the dean (or appointed designee) will take into account both the seriousness of the offense and any particular circumstances involved.

Penalties for an academic offense may include one or more of the following:

- a warning letter to be kept in the academic integrity database maintained by the Office of the Vice Provost for Academic Affairs and Instruction
- a lowered grade or loss of credit for the work found to be in violation of the

Code (to be specified at the time that the penalty is assigned)

- a lowered overall grade for the course in which the offense occurred (to be specified at the time that the penalty is assigned)
- a failing grade of XF for the course in which the offense occurred (to be specified at the time that the penalty is assigned)
- suspension for the semester/term in which the offense occurred or for up to two semesters following the semester in which the offense occurred
- dismissal from the university Penalties (b)–(f) will result in non-academic sanctions that may include prohibition from participation in extracurricular activities and the loss of AUS grants and scholarships. See the AUS Student Handbook for details.

For penalties (e) and (f), the student is assigned a grade of N for all semester/term registered courses, with a provision for a grade penalty for the course where the academic offense was reported. No refund or cancellation of tuition fees will be permitted in such cases.

Students are solely responsible for any financial implications resulting from an academic integrity violation.

Students found guilty of an academic integrity violation will not be allowed to complete a course evaluation for the course in which the offense occurred.

Students with a record of sanctions (b)–(f) resulting from violations of the Code (or Student Code of Conduct) will not be eligible for the Dean's List.

Suspension and Dismissal

The decision as to whether suspension or dismissal is appropriate in a given instance will necessarily depend on the circumstances of each case.

Suspension

(temporary separation from the university)

Suspension is effective for not less than the semester/term in which the penalty is levied or for not more than one calendar year. The length of a suspension must be specified in writing when the student is notified of the outcome of the adjudication process.

A student who is suspended is entitled to resume studies in the same college/school at the conclusion of the period of suspension if all academic requirements are met. The student must submit a Reactivation Request Form to the Office of the Registrar via the student's AUS email account. The form is available at www.aus.edu/registration/forms.

Courses completed outside AUS while on suspension do not transfer.

Dismissal

(permanent separation from the university)

Dismissal is invoked in cases of serious infractions of rules and regulations and when circumstances indicate that a student's association with the university should be terminated in the interest of maintaining the standards of behavior and conduct normally expected in a university community.

In instances where the dean (or appointed designee) hearing the case has recommended dismissal, the Academic Appeals Review Committee will review the case and make a recommendation to the Vice Chancellor for Academic Affairs.

Notification of Penalty

The dean (or appointed designee) hearing the case will notify the student in writing of the outcome of the adjudication process and, if applicable, the assigned penalty.

In addition to the faculty member bringing the charge, the following university officials have a legitimate need to know and will be informed of the outcome of the adjudication process at the time that the student is notified:

- The head of the department in which the offense occurred
- The dean of the college/school and the head of the department responsible for the major in which the student is enrolled (if applicable)
- The Vice Chancellor for Student Experience
- The Office of the Registrar
- The Academic Support Center

- The Vice Provost for Undergraduate Affairs and Instruction

For record keeping of documents pertaining to the infringement of the Code, please refer to the appropriate section under Student Records in the undergraduate catalog.

Appeal of Penalty

In cases concerning notation to the student's record [penalties (d)–(f)], students will be notified in writing of their right of appeal. Appeals must be submitted in writing to the Vice Provost for Undergraduate Affairs and Instruction within five working days of the date of notification of the outcome of the adjudication process by the dean (or appointed designee).

Appeals are limited to grounds of excessive sanction, improper procedure and unavailability of relevant evidence at the time of the meeting with the dean (or appointed designee) to discuss the charge with the student.

The Vice Provost for Undergraduate Affairs and Instruction may affirm, modify, or remand the case to the dean (or appointed designee) with instructions for further action. The decision of the Vice Provost is final.

For penalty (f), the Academic Appeals Review Committee will review the case and make a recommendation to the Vice Chancellor for Academic Affairs. The Vice Chancellor for Academic Affairs may affirm, modify or remand the case to the dean with instructions for further action. The decision of the Vice Chancellor for Academic Affairs is final.

Notation of an Academic Integrity Code Violation Penalty

A student's standing that impacts his or her eligibility to continuously enroll at AUS affects academic progress and, for this reason, is deemed transcript-appropriate. The general type of infraction (academic or disciplinary) is

noted on the student's transcript, as well as the office responsible for issuing the student's separation from the institution.

Penalties (d)–(f) will become a permanent part of the student's file maintained by the Office of the Registrar, with appropriate notation on the student's academic transcript indicating that there has been a violation of the Code.

For penalties (e) and (f), the student is assigned a grade of N for all semester/term registered courses, with a provision for a grade penalty for the course where the academic offense was reported.

The student may petition to replace an XF grade resulting from a category (d) penalty with an F grade at the time of graduation or following complete withdrawal from the university. For details, please refer to the Appeal of an XF Grade section under Student Petitions and Appeals in the undergraduate catalog.

For tracking purposes, all academic integrity violations will be recorded in the university's Student Infraction Management System maintained by the Office of the Vice Provost for Academic Affairs and Instruction.
