Registration Instructions

Undergraduate eligibility to participate in early registration

- You are currently registered.
- Your academic standing is:
 - a. Good Standing
 - b. Probation 1
- You have no holds applied to prevent you from registering.

To view your holds, go to www.aus.edu, login in to Banner, click on Student Services and then click on Student Records.

All students have an Advisor Hold (AV) placed on their registration. The Advisor Hold will be removed after you have had your meeting with your advisor. All other holds can only be cleared by the office that placed the hold on your record.

Placement Tests

Continuing students who plan to change their major and are required to take any placement tests must sign up for the tests by emailing testingcenter@aus.edu no later than three days prior to the test date.

Advising

The advising and registration procedures are designed to allow all students sufficient quality time to interact with their faculty advisor. Your school has assigned you an advisor. If you have not been assigned an advisor, contact your school and ask the head of your department to assign an advisor for you.

Step 1: Before Your Appointment with Your Advisor

- View the course offerings online. Go to www.aus.edu, click on Banner, and choose Summer 2022 in Class Schedule.
- Use the university undergraduate catalog to review the requirements of your program of study and mark the courses that you have already completed and the courses that you are registered in this semester.
- Prepare a list of the courses you should take to advance in your studies.
- View the course offerings online and note the proper **Course Reference Number (CRN)** for each of your courses. This is the five-digit number, and it is required to identify the course and section you are selecting when registering. Each course, laboratory and recitation section will have a unique five-digit CRN.
- Prepare a list of alternate courses in case your first choice is not available. Make sure you have selected laboratories that properly match lecture sections.

To register early for a course, you must have passed, or be currently registered for the prerequisites of the courses you want to take. Please review the university regulations regarding minimum passing grades, repeating courses and the maximum load for students on probation.

Once the Spring Semester grades are out, it is your responsibility to adjust your schedule if the prerequisite requirements are not met.

Step 2: Appointment with Your Advisor

Have a virtual meeting with your advisor. Do not hesitate to discuss with your advisor any questions related to your program of study. After meeting with your advisor and your course selection is approved, your advisor will send you a signed copy of your course selection, and the advisor will keep a signed copy to retain in your file. The Advisor will notify the designated person in your college/school to have your Advising Hold removed. Once the hold is lifted, you may register online on your assigned day.

Step 3: How to Register Online

You may access online registration from the AUS homepage <www.aus.edu>. Enter the secure area by clicking on Banner. After entering your user name and password on the login screen, you will be at the main menu.

- Click on Student Services, and then click on Registration.
- Click on Check your Registration Status to view any holds. If you have any holds, you must contact the department(s) that applied the hold to have it removed. If you are clear to register, click on Add/Drop Classes.
- Enter your desired Course Reference Numbers (CRNs) into the numbered boxes and click on Submit Changes. You will immediately see if you have been successful or be shown any problems with your requests.
- You may add additional courses by entering them in the numbered boxes or drop a course by selecting the Drop option in the Action Column next to the course you wish to drop. When you are finished, you can print out a copy of your schedule by selecting the appropriate button at the bottom of the page.

General Education Requirement

General education at AUS complements professional programs and the University encourages students to register for general education courses throughout their degree program as shown in the proposed program of study in the Undergraduate Catalog.

The AUS registration policy allows students with senior standing the first priority during early registration period and plans courses to ensure that there are seats available for seniors across the range of general education program areas. As the University ensures that there are courses across all general education program areas at the time of early registration, requests for registration in courses on the basis of meeting graduation requirements cannot be considered.

Seniors, if you are unable to register a General Education Course, notify your Associate Dean within 24 hours of the closing of your early registration time ticket.

Registration Integrity

As per Section 2.12.vi of the AUS Student Code of Conduct, "Unauthorized use or manipulation of University IT systems and/or University processes to alter or hinder university operations for personal, material or monetary gain. This includes, but is not limited to, reserving seats or buying, selling, trading or taking advantage of reserved seats in courses during registration" The University takes these matters seriously and has unfortunately had to suspend students who have sought to alter or hinder university operations related to registration. **Please ensure that your permanent record at the University is not affected by engaging in activities that violate the AUS Academic Integrity Pledge and the Student Code of Conduct.**
